## About Me

I'm a passionate Web Developer with a strong focus on front-end development, crafting sleek and responsive websites using React, HTML, CSS, and JavaScript. I've built dynamic user interfaces and seamless web experiences, always pushing for pixel-perfect designs and top-notch performance. With skills in Python, C++, SQL, and graphic design, I bring both technical depth and creative flair to every project. I'm driven by a love for problem-solving and creating user-centric designs that not only work flawlessly but also look amazing!

Projects

Portfolio

A website where users can learn more about me, explore my skills, and get a glimpse of who I am.

MyGov Website

A website to help users learn more about the Indian government, featuring a sign-up system with database integration for user authentication.

Extra-curricular Activities

Volunteer Mentor (Volship)
- Led interactive sessions to inspire and guide young students on career opportunities and future planning.

National Service Scheme (NSS)
- Actively engaged in community service initiatives, promoting social responsibility and leadership.
